FOR IMMEDIATE RELEASE

THIRD PHYSICIAN-PARTNER JOINS USC FERTILITY
Drs. Richard J. Paulson and John K. Jain welcome
new private practice colleague Karine Chung, MD, MS

Los Angeles, August 15, 2005 - USC Fertility is pleased to announce the recent arrival of third partner-physician, Doctor Karine Chung.

Chung joins USC Fertility from the prestigious University of Pennsylvania, where she completed her subspecialty training in reproductive endocrinology and infertility, gaining excellent skills in specialized gynecologic procedures and advanced laparoscopic techniques. While pursuing this subspecialty training, she also earned a master's degree in clinical epidemiology.

Richard J. Paulson, MD, FACOG
Chief,
Division of Reproductive
Endocrinology and Infertility
Professor of Obstetrics and Gynecology

John K. Jain, MD, FACOG
Associate Professor of
Obstetrics and Gynecology

Karine Chung, MD, MSCE
Assistant Professor of
Clinical Obstetrics and Gynecology

She is the author of several articles and chapters related to the field of obstetrics and gynecology, including a prize paper on fertility preservation in male patients with cancer.

"After a thorough search for a third partner who complemented our areas of specialty, Dr. Chung became the clear choice," says Dr. Richard J. Paulson. "Her stellar research experience and commitment to patient care further enhances USC Fertility's ability to provide a wide array of fertility options to new and diverse patients," adds Dr. John K. Jain.

In addition to fulfilling her duties at USC Fertility, Chung serves as assistant professor of obstetrics and gynecology in the Division of Reproductive Endocrinology and Infertility at the Keck School of Medicine of the University of Southern California.

"I am encouraged by USC Fertility's deep commitment to its patients and dedication to groundbreaking research. I look forward to working with Dr. Paulson and Dr. Jain on new techniques that will give hope to patients who are not able to conceive," says Chung.

Chung's chief interests include optimizing outcomes in pregnancies achieved through assisted reproductive technologies such as in vitro fertilization, as well as a particular focus on conditions such as polycystic ovary syndrome and endometriosis. She has remained active in training medical students and residents, and has received recognition for her teaching abilities. She is a member of the American

The division of Reproductive Endocrinology and Infertility, Department of Obstetrics and Gynecology, Keck School of Medicine of University of Southern California.

Society of Reproductive Medicine, the American College of Obstetricians and Gynecologists, and the Society for Reproductive Endocrinology and Infertility.

Chung received her bachelor's degree in psychology at Wesleyan University in Connecticut in 1994, followed by her medical degree at the Ohio State University in 1998. She then completed her specialty training in obstetrics and gynecology at New York University and Bellevue Hospital Center in New York City.

She possesses a solid working knowledge of conversational Mandarin.

Chung and her family have relocated to Los Angeles. Married, with one child, she was born and raised in Youngstown, Ohio. Her father was a successful surgeon there following his training in Taiwan, where he met Chung's mother, a nurse.

USC Fertility is a leader in fertility-related clinical research and is dedicated to developing treatment breakthroughs and providing all potential parents reliable and scientifically tested alternatives for building families today and tomorrow.
